

MULTI VOLUME BOOK

CHAPTER NC OF CLASSIFIED CATALOGUE CODE

CCC define a multi volume book as a "Book in two or more volumes giving a continuous exposition, and, for this or for any other reason in the distribution of thought among the volumes, compelling the treatment of all the volumes as an inseparable set, i.e. as if they together formed a single volume".

Types of multi volume

(i) the constituent volumes, do not have a special title or title of its own other than the common title of all the volumes.

(ii) all other types of multi volume fall under the second category.

Type 1 : **COMPLETED SET** - Rule NC 13 -

After the title we have to write: 4 V. - means four volumes.

UNCOMPLETE SET

There are cases when all the volumes of a set are not published and they are received at different intervals as and when published. As per rule such sets in a library are called uncompleted set. So as per rule an additional sentence to be added which contains "the term 'V' and the number of volumes published so far and a dash".
